

Changes to where you should send your Countryside Stewardship Scheme documentation

As part of our efforts to improve the delivery of Countryside Stewardship we have refocussed our operations at fewer sites and have changed the team name from Technical Services to Countryside Stewardship Delivery Services.

Below are tables which details where you should send your CS documentation to for each county / work area. If you need to contact us please check the arrangements for your county first.

Countryside Stewardship sites receiving claim related documentation (Includes receipt of revenue claims, capital claims, amendment & minor temporary adjustment requests, land transfers & inspection enquiries).
