

WHY SHOULD YOU ADVERTISE IN EARNER & GROWER

British Farmer & Grower is the flagship publication of the National Farmers' Union and is the best way to reach our country's innovative farming businesses.

NFU members are at the forefront of the design of agricultural policy and frequently speak to MPs, supply chain leaders and retailers at the highest levels to ensure that British farmers get the best deal for a profitable and productive future for the sector. Our members rely on British Farmer & Grower to keep them informed and up to date on all farming issues.

Every month a blend of political insights, practical farming news, regional news and member focus features is delivered to each NFU member. Our audited ABC figure of 47,371 copies makes us the largest agricultural publication in the country.

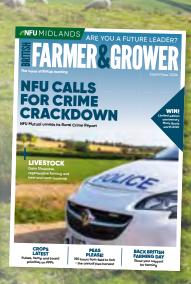

The NFU has been representing agriculture for more than 110 years and is the voice of British farming. This means that we are uniquely placed to understand their lives, their businesses and their priorities, as well as having our finger on the pulse of the latest agricultural issues.

Member exclusive content from our inhouse policy and sector experts gives farmers and growers the inside track on agricultural hot topics. Our magazine contains NFU news, features focusing on visionary member businesses, farm management and sector spotlights, as well as details on exclusive member benefits.

75% of NFU members pick up and read the magazine every month and are highly responsive to the advertisements published.

We are the only magazine that produces four regional editions that contains bespoke content directly relating to the North, East, South and Midlands. It also enables advertisers to focus their message to specific areas THE VOICE OF BRITISH FARMING

OUR READERS

Cereals and oilseed harvest could be smallest in at least 20 years he British cereals and oilseed rape harvest is likely to be the smallest by area in at least two decades, the latest data suggests. Variety Survey in July point to a combined of fresults from 1 terms of the small bear to a combined of the small state of the small state
